

When child care falls through, work doesn't have to

It happens every day: someone on your team wakes up to a child care emergency. A sick child, a closed daycare, a canceled nanny. The scenario may vary, but the business impact remains constant—and costly.

81%

of working parents depend on reliable child care just to show up for work

11 workdays

lost per year on average by parents scrambling to solve unexpected care emergencies

68%

of working parents have left jobs or changed careers due to caregiving conflicts

The #1 benefit working parents demand

In today's fierce talent market, working parents rank reliable child care support above 401(k) matching and unlimited PTO. This isn't just another perk—it's your competitive edge for retention, productivity, and employee well-being.

From panic to productivity with Homethrive

When child care falls through, your employees simply open the Homethrive app. Within minutes, they've booked a fully vetted care provider who arrives before their commute begins. They walk into their workday prepared and present, knowing their child is cared for.

With Homethrive backup care, everyday emergencies become manageable moments.

“ I've been working with kids for 8+ years and I'm interested in taking on the part-time sitter role.”

About Chloe ^

I've spent 8+ caring for children of all ages, from infants to school-age kids. Whether it's arts and crafts, homework help, outdoor activities, I strive to make every moment fun and safe. I'm certified in CPR and First Aid and experienced in caring for neurodivergent children.
