Homethrive helps your employees manage the full complexity of caregiving by providing concierge-level support—whether it's navigating care systems and benefits, coordinating logistics, or coaching them through difficult decisions. Powered by predictive technology, we step in early to anticipate needs and deliver personalized guidance that reduces stress, saves time, lowers costs, and keeps your people focused at work and present at home.

### Unlimited 1:1 support

from **Care Guides**, experienced social workers providing coaching, care coordination, and emotional support—trusted allies who get things done.

### 24/7 digital access

to **smart tools and expert-vetted resources** that make it easy to find answers and manage care anytime, anywhere.

### Seamless benefits integration

connecting to the right EAP, financial, and healthcare resources at the right time to **maximize engagement and impact**.

## Every caregiving need, covered.

### Backup care

Reliable, background-checked last-minute care providers for children, adults, and even pets.

### Child care

Support for ongoing care needs through a network of licensed providers, from daycare to after-school care.

### Elder care and aging

Navigate healthcare decisions, find the right services, and get hands-on assistance to care for a parent or another aging adult who needs more help.

### Disabilities and neurodivergence

From autism to ADHD, find the right care, discover resources, and navigate academic support.

### Health conditions

Assistance understanding and coordinating care for cancer, Alzheimer's, and other complex health diagnoses.

### End of life and loss

Compassionate guidance and hands-on assistance to help families navigate end-of-life care with dignity.

### Medicare navigation

Expert advice for understanding coverage and selecting the right plan.
